

OSHA 10-HR. CONSTRUCTION OUTREACH TRAINING COURSE

The OSHA Construction Industry Outreach Training Program is a voluntary training program designed to help individuals comply with federal OSHA requirements. The purpose is to increase workplace safety awareness and compliance, and reduce a company's risk of fines and penalties resulting from OSHA violations. Participants who successfully complete the course will receive a course completion card directly from OSHA.

The benefits of this training are immediate as participants learn how to prevent accidents and injuries. The course will include comprehensive instruction in the OSHA Construction Standards and can be tailored to your particular industry.

Course Topics

Required: Introduction to OSHA, OSH Act/General Duty Clause, General Safety and Health Provisions.

Required: Electrical

Required: Fall Protection

Required: One of the following:

Materials Handling, Storage, Use, or Disposal. Cranes, Derricks, Hoists, Elevators, and Conveyors. Motor Vehicles, Mechanized Equipment, Construction Equipment.
